## About Me

---

I am a web developer who is fluent in German and specializes in building web applications using JavaScript and Angular. Feel free to check out my public portfolio, where you can find examples of responsive websites and business applications that I've created. My journey into the world of IT began with coding small websites at home, but I decided to pursue professional training and work on more significant projects. Now, I'm excited to continue building on my experience and start my career in the IT industry as a junior developer.

## Stack

---

### Main Stack:

- JavaScript
- TypeScript, Angular
- HTML, CSS, Bootstrap

### Side Stack:

- Git, APIs (REST), Google Firebase
- 

## Skills

- **Building Applications with JavaScript & Angular:**  
I possess experience in developing landing pages, web applications, and Object-Oriented Programming (OOP) based Jump-and-Run games using various relevant technologies.
- **Working in a Software-Team:**  
During learning coding, I did various group projects where I learned how to develop a software project in a team.
- **High sense of responsibility:**  
I am used to taking responsibility and working diligently as I always did in my job as an accountant.
- **Relevant Skills:**  
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean ac interdum nisi. Sed in consequat mi.
